

ASIAN MEDICAL STUDENTS' ASSOCIATION HONG KONG

Address: P.O. Box 6176, Central Post Office, Hong Kong

March 10, 2008

Dear Sir or Madam,

Letter of Endorsement

On behalf of the Faculty of Medicine of The Chinese University of Hong Kong and the Li Ka Shing Faculty of Medicine of The University of Hong Kong, we are writing to pledge our full support for the Asian Medical Students' Association Hong Kong (AMSAHK).

Being a non-profit association jointly formed by medical students of the two Universities, AMSAHK currently serves as the only international medical student organization in Hong Kong. As Honorary Advisors of AMSAHK, we have witnessed the enthusiasm of its members towards enhancing international understanding amongst medical students and promoting health awareness in the local community. AMSAHK also actively participates in international medical students' conferences, which facilitate mutual understanding and exchange among delegates. Equally impressive are the outstanding results AMSAHK has achieved at various international academic competitions over the years.

AMSAHK is a member of the Asian Medical Students' Association International, which provides medical students all over Asia with an excellent platform to learn through interaction, to think beyond the medical curricula, and to innovate for the betterment of people's health. As the Asian Medical Students' Association International continues to grow from strength to strength, we are confident that AMSAHK will well serve its essential roles in the medical development of Hong Kong and in promoting public health to our local community.

I hope you too will recognize the importance of this association and support it through different means. Your dedication towards training future medical professionals is much appreciated by the two Faculties and their medical students.

Yours faithfully,

Professor TF Fok
Dean

Faculty of Medicine
The Chinese University of Hong Kong

Professor Raymond Liang
Dean

Li Ka Shing Faculty of Medicine
The University of Hong Kong
